The employment reserve now has 270,000 ship yard workers enrolled.

As a result of an attempted raid on Paris Tuesday night, the defense brought down five planes and one bombing machine.

By a joint proclamation of the President and Governor, tomorrow will be half-holiday to work for Liberty Bonds.

Count Czernin, the deposed Austrian minister, didn't stay at the front long. He is to be sent as Ambassador to Berlin, which will probably cure him of his peace idea.

The Daughters of Isabella, a German Catholic organization, with 30,000 members, has purchased a home in Washington. War activities will occupy much of their time.

A couple of Hindus, Ram Chandra and Ram Singh, fell out in a San Francisco and fought their differences out in a court room until both were killed. Both Hindus were evidently black sheep.

Under a new order farmers who make affidavit that they are tilling the soil are not to be taken in for draft April 28 and May 6. If, however, the man thus exempted quits the corn row he automatically qualifies himself for the trenches.

Forty-two young men are to be selected for army service Saturday and will leave Sunday morning. Three of the young men summoned have been married since they were registered—Vernon Pepper, Urvu Williamson and Herbert W. Williams. The last named was married Saturday.

Uruguay and Argentina are expected to declare war against Germany at an early date, and the Berlin advises forward to Amsterdam. The German newspaper has been notified to prepare the news for this development.

Senator Sherman, having in State that is ashamed of the May of its largest city, made an exhibition of his lack of patriotism by indulging in a bitter tirade. Secretary Baker and other officials there used to be a man named Sherman in the Senate who was a statesman.

The direct charge that The Mooney and his associate were here with German money to break up a preparedness parade in San Francisco by the use of dynamite, was made in the Senate by Senator Jan, of California. Headquarters investigation had shown that Mooney had a fair and impartial trial regardless of the assault on the court by Mooney's friends.

Frederick C. Miller, German major of Michigan City, Ind., was arrested and locked up as an alien enemy when he went to Washington Tuesday to discuss with federal officials prospects for completing his naturalization. He took out his papers before the United States went to war. He was arrested under the law which forbids enemy aliens to enter the District of Columbia.

FIRST DRIVE IN NEW ATTACK ON AMIENS SALIENT HURLED BACK, EXCEPT IN ONE VILLAGE, 84 PRISONERS ARE TAKEN BY THE ALLIES.

BERLIN CLAIMS CAPTURE OF HILL

(By International News Service.)

London, April 24.—The war office tonight issued the following statement: "An enemy attack upon the Anglo-French front south of Amiens this morning was repulsed, but the enemy gained possession of Villers Bretonneux. Villers Bretonneux lies nine miles almost due east of Amiens. The statement also says the enemy attacks north of Somme and north of Albert were repulsed. An attack east of Rocheq also was repulsed. Eighty-four Germans were taken prisoners.

Slight Gains At Nightfall.

Paris, April 24.—A night official report says: "After making heavy attacks the enemy succeeded in gaining a footing in the eastern outskirts of Haard and Santerre about ten miles Northwest of Amiens, and in the wood to the north. Elsewhere the enemy was repulsed."

On the face of the late British and German official reports issued tonight the renewal by the Germans of the drive on the great Franco-British base at Amiens was a great failure. The Teutonic onslaughts were again launched in densely packed waves, with the chief weight thrown against

the junction of the French and British south of Somme, and beaten off virtually everywhere with heavy losses.

The only gain the enemy admittedly made is due east of Amiens.

German Claims.

Berlin, April 24.—The German war office issued the following statement tonight: "Northeast of Baileuil we captured Clengelhook Hill, and a number of French were taken prisoners."

Attack Aimed At Arras.

Following the fierce bombardment of Tuesday the third German drive was begun yesterday north of Amiens, the evident purpose being to push back the British line on the sector between the new salients at Amiens and Ypres. The British front was attacked for a distance of 20 miles. The probable goal of the Huns will be the important city of Arras. The first strong infantry attack was near Albert but the assault was repelled by the British. The French also repelled an attack on their lines further South.

The British are still outnumbered, having sustained heavy losses during the past month of continuous fighting.

AMENDMENT NOT WANTED

WOULD HINDER THE PROSECUTION OF GERMAN SPIES AND SYMPATHIZERS.

(By International News Service.)

Washington, April 24.—The department of justice is fighting the proposed amendment to the sedition law on the ground that it would hinder the prosecution of German propagandists. The amendment provides nothing in this act shall be construed as limiting the liberty or impairing the right of any individual to publish or speak what is true with good motives and with justifiable ends.

RYAN GETS IT.

(By International News Service.)

Washington, April 24.—John D. Ryan, tonight was named for director of aircraft production for the army.

The change in the personnel of men responsible for the production of aircraft is completed with the reorganization of the aviation section of the Signal Corps. A new division of this section, to be known as the division of military aeronautics, is created and will be under the direction of Brig. Gen. Wm. Kenly. He will be responsible for the training of aviators, and will direct their forces.

The selection of Mr. Ryan for the position of director of production came as a surprise in Washington. He was born in Michigan 54 years ago and besides being president of the Anaconda Copper Company is director of a number of powerful banking institutions in New York.

McCONNELL-BRADLEY.

Washington, April 24.—Only

one Kentuckian is a graduate of the third series of officers' training schools for the 82d Division at Camp Tipton, Ga. He is John P. Pierce, of Mayfield. At such times as a suitable vacancy occurs, he is eligible for appointment as a Second Lieutenant of infantry.

NEW GERMAN REVOLVER.

An American officer has brought a new German revolver. It is a rapid-firing resembling a miniature machine gun, and made its first appearance against the Americans.

Some of the early bird farmers have finished planting corn.

Another April shower is promised for to-day.

A BIG HOLE IN THE MOLE

AVIATORS VIEWED THE RESULT
OF THE RAID ON ZEEBRUGGE
AND OSTEND.

(By International News Service.)

London, April 24.—A break twenty yards wide was blown into the inner end of the great Zeebrugge mole, by British Naval raiders yesterday. The admiral announced tonight, this important result of the brilliant feat was definitely determined by aerial observers today. At Ostend aerial observers saw a sunken object between the piers blocking the greater part of the fairway, the admiral's statement said.

The blocking of the greater part of the fairway, at Ostend, removes the last doubts of the efficacy of the British attack at the base.

OUR SERVICE FLAG

A SOUTHERN HERO.

The American soldier in France has the "endurance of the English, the courage of the French and the pep that belongs to the American alone," according to Lieut. Daniel C. Roper, son of Internal Revenue Commissioner Roper. In a letter to his father Lieut. Roper tells of the gallant fight of a young South Carolina officer named David, who, overwhelmed by Germans, accounted for seven of the enemy before he was killed.

"You will be proud to know the case of a South Carolinian, son of Dr. David, near Clio, S. C. He was overwhelmed by the Boches, but he had a pile of human flesh in front of him. He fought like a tiger—accounted for seven Boches with his pistol and then was fighting with an empty rifle when struck from behind."

Twenty-seven of the thirty-one precincts of Henderson county returned a majority of 558 votes against the road tax proposition in a special election held in the county Tuesday. So much money is being wasted in road building in some counties that the people generally are getting more careful about putting large sums of public money into improper hands. In Pulaski county, specially, something of a scandal has resulted.

WILL BACK UP THE BOYS AT THE FRONT**THE PINK AND YELLOW CARD FIXES STATUS**

Written for the Liberty Loan Organization of the Eighth Federal Reserve District.

By MILDRED S. McFADEN.
We are backing up the boys at the front, Our soldier boys, the flower of our youth, Who answered Freedom's call And are gladly giving all For liberty, for justice and for truth.

We are working for our heroes at the front, Who nobly bear the brunt of shot and shell, For, backed by love untold, And bullets made of gold, They will rescue all the world from German Hell.

We are backing up our sailors on the sea, So gallantly standing by their guns, 'Mid perils of the deep Where deadly U-boats creep To do the baneful bidding of the Hun!

We are backing up our birdmen at the front, Whose dauntless souls no sense of fear can know. Patrolmen of the sky, O'er hostile lines they fly To guard the guns on "firing line" below.

We are backing up our service at the front, Where toll of pale doth mark each victory won, That nurse with Cross of Red May hover o'er each bed To soothe and comfort every mother's son.

We are backing up our colors at the front, Old Glory shall never brook disgrace, O lift it high and higher, That its message may inspire A spirit of world freedom for the race.

To back our allied forces at the front is the urge of our Liberty Loan campaign.

Each Liberty Bond we hold Is a handicap of gold To bind the Beast forevermore in chains.

"Bring your tithes into my storehouse," Freedom calls, Make every hoarded dollar do its share; With patriotic thrill And zeal of Bunker Hill Roll up millions for the boys "over there."

WHAT A BOND WILL BUY
Even a \$50 investment will do much for some boy "over there."

When you subscribe to the next Liberty Loan you not only make a good investment, but contribute in a direct and practical way to feeding and equipping the army or navy.

Here are a few of the things even a small investment in the bonds will accomplish. They are taken from a list prepared by the Treasury Department, and there are many others:

One \$50 bond will buy trench knives for a rifle company, or 23 hand grenades, or 14 rifle grenades, or 27 cases of surgical instruments for enlisted men's belts, or 10 cases of surgical instruments for officers' belts.

A \$100 bond will clothe a soldier, or feed a soldier for eight months, or purchase five rifles or 30 rifle grenades, or 43 hand grenades, or 28 pounds of ether, or 145 hot-water bags, or 2,000 surgical needles.

A \$100 and a \$50 bond will clothe an infantry soldier for service overseas, or feed a soldier for a year.

Two \$100 bonds will purchase a horse or mule for cavalry, artillery or other service.

Three \$100 bonds will clothe a soldier and feed him for one year in France, or buy a motorcycle for a machine gun company.

Four \$100 bonds will buy an X-ray outfit.

One \$500 bond will supply bicycles for the headquarters company of an infantry regiment.

KEEP THE WINDMILL GOING

Investing in Liberty Bonds keeps the Government's machinery in motion.

Every farmer has seen a windmill. Millions of farmers own one or maybe two. And every farmer knows that a windmill can't go without wind. There is an old-fashioned expression about "raising the wind," meaning that one is raising the money for some venture.

Uncle Sam is raising the wind at this time for one of the biggest jobs he ever has had on his hands. It is up to all of us to help out. The purchase of Liberty Bonds will make certain the turning of the machinery that will defeat the common enemy.

THE MOVIE SHOWS HELP

The motion picture exhibitors of Los Angeles have inaugurated a movement for "Liberty Loan Night," at every theater in the city, in accordance with plans now being formulated by a committee of the National Association of Motion Picture Industry.

Exhibitors throughout the United States will be supplied with posters, slides and other material to be used by the theaters in this campaign.

CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadows, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable. I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would grip me and afterwards it seemed I was more constipated than before.

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not bad to swallow. My digestion soon improved. I got well of the sour stomach; my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use."

Thedford's Black-Draught has for many years been found of great value for the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects. It has won the praise of thousands of people who have used it.

BARBERS WILL BUY BONDS
Union Secretary Asks Them to Share Good Fortune With Government.

Union barbers in St. Louis, who recently have been benefited by an increase in their wage scale, are being asked by F. A. Heller, secretary of Local No. 102, Journeyman Barbers' International Union of America, to share their good fortune with their country.

Heller is advising the more than 600 members of the local craft to invest some of their earnings in Liberty Bonds. Barbers are now costing 25 cents.

Under the new scale barbers are getting a guarantee of \$16 a week and 60 cents on every dollar over \$24 a week that a barber takes in. The "boss" barbers, or shop proprietors, have inaugurated a higher charge on shaves and haircuts to meet the increased pay of the men at the chairs.

"There can be no better investment than a Liberty Bond," said Heller. "I would like to see our men, who are now getting a share of the prosperity which the war has brought in some fields of industry, help our government in turn. So I am telling them to divert some of their earnings to Liberty Bonds."

WHAT WE CAN DO
Prominent Kentucky Educator Points Out Duty of American.

By FRANK L. MCVEY, President University of Kentucky.

There are a number of things that we can do in this war. Some of us can do all of them. Any of us can do part of them. These things are:

1. To enlist. 2. To go in the draft. 3. To work for the government. 4. To buy bonds. 5. To save food, materials and money by buying bonds.

Unless there are materials and food the men who enlist, who go in the draft, or who work for the government cannot be maintained. The means by which the government gets food and materials and pays wages is through the sale of bonds. This is the key, and when the government has the funds it can go on with the war. If it does not have them its efforts must cease. The duty of the patriotic citizen is apparent.

GYPSY SMITH THE NOTED EVANGELIST

TELLS WHY KAISER'S GOD IS
HIS DEVIL AND WHY HE
WOULD LIKE TO KILL
HIM.

(By International News Service.)

New York, April 21.—"I've been loving people all my life, but I could shoot the Kaiser and feel that I was doing a favor to God. The Kaiser's God is my devil."

Gypsy Smith, one-time vagabond, for forty years the world's greatest evangelist, and for the past three of these man-of-all-work for the Young Men's Christian Association just behind the British firing lines in France, made this declaration of hate to-day with a fervor that shook the dingly red fragment stitched to the breast of his "Y" uniform.

That little red flag, already dimmed by the grimes of the trenches, where Gypsy Smith has stood side by side with the men who fought, making his "machine-gun speeches" up there where the big guns were rival orators, didn't look like much to Gypsy Smith it wasn't much. He wouldn't even talk about it.

In fact, the little red flag was nothing more than a decoration by the King of England. It wasn't just for hating the Kaiser, of course, that Gypsy Smith was honored at Buckingham Palace. Lots of folks would be wearing Victoria Crosses if they came that way. Gypsy Smith got his decoration (he has a medal besides the red fragment) for shooting the Kaiser by proxy.

For three years he has been putting new soul and spirit into the men

They are fighting the Kaiser. He has been doing it "up where the big noise is," with no thought of danger. He went through four gas attacks. Times without number he went into the trenches with the men, and for three years he was never outside the danger zone.

"It's the biggest bit of work God ever gave me to do," said Gypsy Smith yesterday. "They've got my heart, those boys of ours and those boys of yours, who are fighting without thought of being heroes. I'd rather untie their shoelaces than preach the greatest sermon in the world. I just wanted to serve them and I didn't care whether I did it washing cups or scrubbing floors or handing out chocolate or preaching."

Speaking of decorations, Gypsy Smith has his own ideas of who should get them.

"The bravest man I saw over

there?" he said. "They all were. Every boy who goes into a trench, every man who goes over the enemy lines in an aeroplane, every lad in the navy, should have a Victoria Cross."

The swarthy face of the man who had been born in a gypsy tent and who had spent the first sixteen years of his life as a vagabond was grave as he talked of the latest word of the German advance.

"It means that this is the crisis of the war, and that every energy must be bent toward stopping the Germans," he said. "The Kaiser is a beast. His people for forty years have been fed on the belief that they must first crush the British Empire, and then 'England's spawn, the Americans.' The war must be fought to a finish. We've got to put the Germans where they are in no position to do the world further harm. The German Kaiser has perpetrated deeds that would make an honest savage bow his head with shame. Germany has shamed the soul of the whole world."

Gypsy Smith will be in America only a few weeks. During these weeks under the auspices of the Y. M. C. A., he will talk to the boys in the training camps and to other audiences of his experiences just behind the firing line. Then he is going back to his work in the trenches.

"Going back?" he said. "Of course, in a hospital in England I talked with a mere boy who had been wounded four times. He was all shot to pieces. When I was leaving after a long talk with him, I said: 'Well, sonny, where will we meet again?' His eyes flashed. 'In France, sir?' he said. 'Surely you don't want to go back to France?' I asked him. 'Ah, don't I?' he said. 'Where else is there for a man these days?'"

No new religion will come out of the war, Gypsy Smith thinks, but a great renewal of the old faith. Every man is a believer in God over there, where the heroism of the day.

When I was leaving after a long talk with him, I said: 'Well, sonny, where will we meet again?' His eyes flashed. 'In France, sir?' he said. 'Surely you don't want to go back to France?' I asked him. 'Ah, don't I?' he said. 'Where else is there for a man these days?'"

No new religion will come out of the war, Gypsy Smith thinks, but a great renewal of the old faith. Every man is a believer in God over there, where the heroism of the day.

"It means that this is the crisis of the war, and that every energy must be bent toward stopping the Germans," he said. "The Kaiser is a beast. His people for forty years have been fed on the belief that they must first crush the British Empire, and then 'England's spawn, the Americans.' The war must be fought to a finish. We've got to put the Germans where they are in no position to do the world further harm. The German Kaiser has perpetrated deeds that would make an honest savage bow his head with shame. Germany has shamed the soul of the whole world."

Gypsy Smith will be in America only a few weeks. During these weeks under the auspices of the Y. M. C. A., he will talk to the boys in the training camps and to other audiences of his experiences just behind the firing line. Then he is going back to his work in the trenches.

"Going back?" he said. "Of course, in a hospital in England I talked with a mere boy who had been wounded four times. He was all shot to pieces. When I was leaving after a long talk with him, I said: 'Well, sonny, where will we meet again?' His eyes flashed. 'In France, sir?' he said. 'Surely you don't want to go back to France?' I asked him. JOE KELLY BACK HOME.

April 22, 1918.

My Dear Papa:
Well I am back to the good old U. S. after nearly four months in foreign waters and needless to say I am glad to be here for awhile anyway.

Am well as I can be and weighing 164 lbs. I was up to 170 when we left Italy but lost it coming across, I suppose, on account of losing sleep, you see we stand watches of four hours on and four hours off and are required to keep our clothes on when we do sleep.

We had quite an interesting as well as a tiresome trip.

We were in Gibraltar for five days on the 21st, over, one day in Spezia, Italy, three weeks in Leghorn, L. and four days in Genoa. While in Leghorn some of us took a few little trips around the country going to Pisa, Florence and Rome. The first night we were in Rome Austrian aeroplanes dropped a few bombs just outside of the city but did no damage; the next night they raided Naples as you probably have read.

We left Genoa on the 23rd with no, arriving at Gibraltar on the 28th staying there until the second last, leaving then for New York, arriving here the 19th. The weather on both trips across the Atlantic made trips tough and extremely cold; the sleet and rain driving in our faces made it very disagreeable to stand on watches, but the weather in the Mediterranean sea was great and the scenery beautiful (you see we travelled along the coasts of Spain and France very close as it was safest) and it made the hunt for subs more pleasant.

In our trips in the Atlantic we were alone but in the Medit. sea we travelled in convoys. Our skipper, who is civilian, would say most every day or so "Gee, I'd like to get a pop at a sub," he never seemed to worry over a sub popping him.

You asked if there were a priest on board. No there isn't, you see we are not on a man o' war, we are on a merchant ship, the crew is made up of civilians but the Navy has had 24 of us on it as gun crews to man the two guns in case of trouble, of which fortunately we had very little.

When we arrived in N. Y. we received mail for the first time in four months and I wish you could see this batch, from the looks of our quarters you would think that it was the Secretary of State's office. You can't realize what a word from home means to a fellow.

We haven't received all our mail as yet but will round it up in time. Received Elizabeth's letter and will answer it right away. Give her and Aunt Mary my best love.

Can't say when we will start across again, but it will be pretty soon. We expect to go to Phila. in a few days where the ships will take on cargo. We all trust to the Lord it won't be ammunition and dynamite, but as some one has to take it across it might just as well be us.

Wish I could explain everything in detail pertaining to our trip and the conditions abroad but it would have me writing a book so you will have to wait until you see me, which will be in a few months (with God's help) because I am going to ask for a furlough. I guess I could get one now but I am afraid that I might not make it back in time for our ship and I don't want to be transferred, any how I spent most all my money in Italy.

I'd give most anything in the world to see you, and I know you would love to see me, so it will be the first thing on mind at all times until we meet again.

Closing with the best of love to you and Tom and thanking you for your prayers. I remain,

Your loving son,
J. M. K.

COWHERD SALE BIG SUCCESS

223 HEAD LIVE STOCK SOLD YES-
TERDAY OFF JESUP FARM
IN TODD COUNTY.

One of the largest individual stock sales ever made in this section was made yesterday on the old Jesup farm just over the line in Todd county by W. A. Cowherd. The sale consisted of live stock as follows:

81 head sheep and lambs.

10 head horses and mules.

66 head stock hogs—shotes.

66 head of cattle.

In addition to the live stock about 100 barrels of good corn, 25 bushels of stock peas, and a quantity of good baled clover and pen hay. Everything brought very satisfactory prices except two or three items for which these seemed to be little demand.

The total amount of the sale is more than \$8,800. The principal items of the sale were 17 sheep and 21 lambs sold together for \$1,350, thirty-three steers sold to the Western Kentucky State Hospital for \$2,550, 19 white-faced heifers sold single, six mules and a saddle horse sold single, and 5 pens of hogs. The largest purchaser of the day was the State Hospital which bought 34 head of hogs in addition to the 38 head of cattle. These hogs will be fed the soap and refuse accumulating at the asylum.

A large number of buyers were present and they kept Col. Tribble, the auctioneer, working hard and fast to catch all bids and not overlook anyone. One thing particularly noticeable at yesterday's sale was that practically everything was purchased by local people and will be kept in the community for the increase.

Yesterday's sale consisted of the surplus which Mr. Cowherd had accumulated and he has much fine cattle, hogs, etc., left on this fine farm.
